

How to use this portal

A short guide for players and organizers.

Play Ludo, Snakes & Ladders, or Marriage — online, on one device, or on a projector.

Online match

Sign in, open Invitations, and join the table an admin assigned you.

Hot-seat

No account needed. Pass one device around, or play one-on-one vs Arena AI.

Live broadcast

Open the projector page and watch the match the admin is showing.

1 CREATE AN ACCOUNT

1. Open the portal and click **Register**.
2. Enter your **Name**, **Email**, **Password**, and confirm the password.
3. Click **Create account**. You land on **Match invitations**.
4. Optional: open **Profile** to change the name other players see on the board.

*Already registered? Use **Sign in**. You can still open **Hot-seat** or **Live broadcast** without an account.*

2 JOIN AN ONLINE MATCH

Online tables are created by an organizer. You do not create rooms yourself.

1. Go to **Invitations**. When you are seated at a table, a card appears there.
2. Click **Join match**. If the game already started, click **Rejoin match**.
3. Wait in the room. Joining marks you **Ready**. The organizer starts when everyone is ready.
4. A short countdown appears, then play begins when the status is **LIVE**.

Empty list? "No invitations yet" means an admin has not seated you yet.

3 HOW TO PLAY AT THE TABLE

On your turn, the table tells you what to do — usually **Roll the dice**, then tap a highlighted piece. If you wait too long, the dice may auto-roll.

Ludo

- Roll a **6** to leave the yard.
- Tap a glowing piece to move.
- A 6 gives another roll. Three 6s in a row skip your turn.
- Landing on an opponent (not a safe square) sends them home — and you roll again.
- Exact roll to finish. First to get all 4 pieces home wins.

Snakes & Ladders

- Start at **GO**. Roll a **6** to enter the board.
- Race to square **100** (exact roll required).
- Ladders climb up. Snakes slide you down.
- Landing on someone sends them back to 1.
- A 6 often means another roll. Toggle **3D view** / **2D view** if you like.

Marriage (online tournaments only): draw from **Stock** or **Discard**, arrange melds, then **Discard** to end your turn. Use **Open** when you have three valid Maal sequences. When you can finish, click **Show & win**. Dublee wins are off.

4 HOT-SEAT (ONE DEVICE, NO LOGIN)

1. Click **Hot-seat** in the header.
2. Choose **Pass and play** (share one device) or **Play vs AI** (you vs Arena AI).
3. Pick **Ludo** or **Snakes & Ladders**. For Snakes, choose Classic, Easy, Hard, Custom, or Create your own.
4. Set player count, names, and colors, then click **Start match**.

During play you can **Change setup** or **Restart**. Use **Lobby** (signed in) or **Sign in** to leave.

5 WATCH THE LIVE BROADCAST

1. Click **Live broadcast** (or **Broadcast** if you are an admin).
2. If you see **Standing by**, no match is on the projector yet.
3. When an admin clicks **Broadcast** on a live table, this page shows that game full-screen. It is view-only.

6 FOR ORGANIZERS (ADMIN)

Admins see **Dashboard**, **Users**, and **Tournaments** in the header.

Users Create a player or admin with Name, Email, Password. Or Download template and upload Excel to create many accounts at once.	Tournaments Create a tournament (Ludo, Snakes & Ladders, or Marriage). Add participants, then seat them with Invite to a group or Split everyone into groups .
Start a table Players must join first (they become Ready). Then click Ready if needed and Start . You can also Pause, Resume, Restart, Cancel, or Delete.	Broadcast & boards On the dashboard or spectator page, click Broadcast to send a match to the projector. Use Custom boards to save Snakes & Ladders layouts.
